

Please do not pass this bill.

You don't need to pass a bill forcing vaccination on a state and its residents with a total of 65% vaccination rates. High vaccination rates of MMR through all of Oregon's counties. America thrives on the LAND OF THE FREE. Taking away one's medical freedom is not freedom. 2.6% of Kindergarteners aren't vaccinated. That is a low percentage of children throughout the whole state of Oregon. This bill isn't fair, and puts children who are vaccine injured, and carry the MTHFR Gene vulnerable and susceptible to harm. It also is taking away OUR RIGHTS TO REFUSE MEDICAL TREATMENT. If you pass this bill, YOU ARE TAKING AWAY OUR FREEDOM. if Oregon can pass a law to make it legal for all residents and illegal immigrants to receive an abortion for free, and for various reasons because it is their body, their choice. Then that same standard should be held for vaccines. It's my body, my choice. It's my body, and I deserve to have the right to decline vaccines for myself. This bill not only puts children and the Oregonians in danger but it's takes away our right to make decisions for ourself and children. Which can be a dangerous predicament on its own. A Mandated Vaccine Bill has no place in a state with such high vaccine rates. Please do not pass this bill for the sake of our rights .
