

I'm Elizabeth Pell and I oppose HB 3063.

I do not believe a child should be excluded from schools because the parent chooses to exempt the child from one or more vaccines due to religious or philosophical reasons.

I urge you to please vote no on HB3063!

Parents have the right to make decisions they feel are in the best interest of their children. The state and govt should not be involved with religious and philosophical family values, their job is to educate the youth not segregate or alienate any group.

We adults making these choices for our children are tax paying citizens with the right to public education. Our tax paying dollars fund the education system and all children have a right to a free public education.

We both know there are many homes across the state in which children are not cared for, treated well, neglected and even abused. Please reallocate the money behind this agenda to care for those in children in need.

Stop wasting our time/money attempting to make barriers to public education.
