

ARGUMENT AGAINST HB2020

You, as my Representatives, you have a FIDUCIARY responsibility to do NO HARM!

Yes, HARM by enacting HB2020. This would be enacting a war on the PRODUCERS of OREGON and its CITIZENS, i.e.

FARMERS

RANCHERS

GROWERS

INDUSTRIES

LOW INCOME PERSONS

RETIRED W/FIXED INCOME

Everyone across the board will be HARMED by this unnecessary and OVERREACHING bill.

There is no net benefit with this bill!!

The Director of OREGON STATE UNIVERSITY Climate Change Research Institute Stated:

“HB2020 would do almost nothing to impact global climate change.”

Your punitive action with this bill is nothing short of:

Theft &

Socialistic Style Government

The Northwest Gas Association gave their conclusion of HB2020:

“As currently composed is punitive to Oregon’s natural gas customers and UNFAIR.”

Let’s face it, this has nothing to do with cleaning up Oregon’s environment and emissions – we are one of the cleanest states, sitting at number 3 in the country.

It’s about the money and your insatiable appetite for it, and your inability to live within your means.

ON BEHALF OF MYSELF, MY CHILDREN, AND 5 GRANDCHILDREN

VOTE NO ON HB2020
