

Hello,

My name is Ashley Looney and I Oppose HB 3063. Vaccination, like any medical procedure, has potential risks. Vaccination is not a one-size-fits-all product. Where there is RISK there must be CHOICE. Our children deserve the right to an education without regard to vaccination status. The people of Oregon deserve to exercise their parental rights, in order to make the best decisions for their unique families. Thank you for welcoming my concern.

Ashley Looney
