

> Dear Committee Members,

> Please support this legislation to reduce carbon emissions and hopefully have an impact on Climate Change. Yes, I may pay a little more in the short term, but long term the cost to the environment and our grandchildren will be greater. All we need to do is look around us and see devastation from the extremes of heat, fire, cold and flooding. Northern California is a good example. A little early pain for future gain. We all play a part.

>

> Thank you for considering the future generations.
