

To whom it may concern,

As a lifelong citizen of Oregon, and a US citizen as well, I oppose bill HB 3063. This bill, you are all trying to fast-track through the system, is historically, taking away our freedoms as a parent, in Oregon. While my children ARE vaccinated, they wouldn't be if I knew what I know now. How our children are being tested on unsafe vaccine combos, how most ex-vaxxers are actually more informed and educated people. We know....and so does our POTUS, as well. He agrees with the detrimental combinations of vaccines, and their ties to Autism. Along with serious, but mostly unknown, side effects. Such as ADHD, ADD, Auto-immune diseases, and even has ties to Cancer -- that have been recently reported on.

I do not understand why, the OR legislatures, continue to try & destroy, our great state. Our great Nation. Truly, you are all evil & sick, as our amazing President has informed us of. Shame on you.
