

Hello,

I am writing to tell you that I oppose HB 3063, the bill to end all non-medical vaccine exemptions for Oregon schoolchildren. I believe parents should retain their rights to refuse vaccinations without being coerced, and I believe all children should have access to an education regardless of vaccination status. This is why Americans enjoy their freedoms, including freedom of speech and religion.

Only 2.7% of Oregon schoolchildren currently hold a philosophical or religious exemption, meaning that scientifically we already have high community immunity to disease.

Therefore, there's no reason to take away parental rights to those using non-medical exemptions.

Every family should be allowed freedom of choice when it comes to vaccination. There are many reasons parents use those exemptions. Perhaps their child has had a reaction to a vaccination that doesn't qualify for a medical exemption, and so they choose to not longer use that vaccine, even if they use others. Perhaps they are using a spaced out or reduced schedule. They may be a member of a religion (such a Jehovah's Witness), which is morally opposed to the use of vaccination. Some vaccines contain human diploid cells and families who oppose abortion and injection of other DNA into their child should have a choice.

I hope you will not support this bill along with me.

Thank you for reading,

Breann VandenBrink
