Subject: Public testimony for HB 3063
Date: Wednesday, February 27, 2019 2:52:11 PM

Dear Senators and Representatives,

I am writing as a concerned citizen of the state of Oregon. I STRONGLY object to the removal of religious and philosophical exemptions to vaccinations. In my opinion the potential harm inflicted by the vaccines and their recommended schedule is far greater than benefits they purport.

If this bill passes I will choose to home school rather than vaccinate my child. I know several Oregonians that feel the same way. Please do all that you can to ensure that this bill does not pass and continue to ensure the right to medical, religious and philosophical exemption from vaccinations.

Sincerely,
Cyrise Beatty Schachter
Ashland, Oregon
