Oppose HB3063  
Hi I'm Lidiya from Oregon

I'm writing testimony for hearing tomorrow that is taking place in Salem Oregon Capital, February 28 ,at 3:00pm.

These hearings need to be fair, balanced, and include opposing viewpoints. We have many highly qualified individuals to present those viewpoints.

Issues related to vaccines should be governed by the states. Over \$4 billion has been paid out for vaccine injuries and deaths and HHS estimates less than 1% of adverse events are reported.

Mandating any procedure involving such risks is unethical.

HHS has failed in its Congressional directive to study vaccine safety for 30 years.  
Mandating liability-free vaccines that have not been properly safety tested is in direct opposition to the first tenet of the Nuremberg Code: The voluntary consent of the human subject is absolutely essential.
