Vaccine exemptions !!

I have 7 grandchildren and have worked in naturopathic issues and holistic health for 50 years of parenting and grandparenting in Portland Oregon to protect my family and their children!

I also own a medical electronics company and work with allopathic doctors! It is very clear that the toxicity and proliferation of pharmaceuticals/recreational drugs/legal drugs have impacted the health of my grandchildren and this generation of adults far more in the 21st century (autism/cancer/ Alzheimer's/addiction) than 70 years ago when I was a child in Oregon 1950s and these toxins did not exist either at all or in minuscule amounts!

Now you are proposing a bill that would require that all children/federal workers/healthcare employees etc are required to literally invest these toxins as Mandated by the state of Oregon!!!! The 60 vaccines that you would be requiring that my grandchildren take over their lifetimes//versus the 7 to 9 that my children were required to take in the 1980s!

This is Unconscionable! The air, water, earth of this planet is so polluted that the addition of any toxins will create new classes of illnesses/injury/death to all of these very vulnerable children/adults who are and have already been exposed to endless toxins daily!! Their immune systems simply will Not be capable of fighting this!

It is astonishing that in concert, our personal freedoms of choice and would also even be capable of being removed!

How could this happen in a democracy where freedom of choice is an inalienable right! I have also been very active in politics as a Democrat/environmentalist/women's rights advocate in Oregon For 55 years in Portland and 5 years under grad and grad school at the University of Oregon!

I Will work on Opposing this all of the way to the Supreme Court!!! I am prepared to put my busy life of work/caring for grandchildren on hold to oppose this concept and its implementation!!

If Big Pharma has its way-your fast track bill will win in a heartbeat!! Please please think carefully about the damage that you are doing to the citizens of Oregon that have lived in this state for Generations and for all of the new transplants that are here for it's beauty/freedoms/integrity!

You are Not protecting our families—you are going to destroy them and bring us all to our knees!! The rest of the world is horrified (Europe) that we would even entertain the thought of destroying our future—the next generation!

Thank you
