---

Dear Committee members,

Thank you for hearing how HB3063 will negativity impact Oregon.....

"When laws segregate children, they are taking away that child's right to an equal education. When the law interfere with doctor patient relationship, it's take away my medical freedom for patients to choose their own medical treatments.

By doing this, not only does it negativity impact the funding for education, by eliminating thousand of students, but it affects businesses and owners, employees, because parents have to stay home.

This negativity impacts our economic system and increases our unemployment rate.

Laws enacted that limit rights as a citizen are unconstitutional.

Amendment 1

Freedom of religion

Amendment 14

Paraphrased "All men are equal"

I oppose HB3063 and believe it violates my rights."

If you would like more information please reference my online testimony which gives more details about my choices.

Thank you

Sincerely,

Evelyn Wakimoto
