

Tonight as this late time of the evening I am writing to you, begging you to consider what you are doing concerning the System Development Changes for Marijuana Businesses in Deschutes County....most importantly the amendment that is being proposed not on the Agenda.

I live on Tumalo Reservoir Road. I have seen the demise of our lifestyle and Ranch and Farm Community while the Marijuana Growing industry slowly swallows us up.

I could site all of the reasonings that what you are doing is wrong.....But you already know the ramifications to those fo us who live there if you favor this change...!

This is fundamentally wrong to what you are doing to the residents of Tumalo. What is wrong with our State Representatives who we put our faith and trust in....I once thought Oregon was a model of democracy and a most livable place in the Country. It's hard not to believe there is a lot of "back street" deals being made.....who is benefiting by this ? We know.....and it's not the residents.....I don't want to believe it's our politician who are selling us down the Deschutes River.....we are tired of fighting...tired of telling you to take the higher road.....tired of you over ruling what Deschutes County wants.

Consider this..... get the Oregon Chamber of Commerce to add a new slogan...."Come to Deschutes County , Oregon....a Stoners Dream lifestyle".
