Subject: Preserve Vaccine Exemptions

Sent from my iPad My Daughter developed Asthma from numerous vaccines. The ingredients contained in vaccines do cause a host of injuries including death & SIDS, all listed in the package inserts of the vaccine it's self as side effects. When death is listed as a side effect of a produce, Choice should always be an option. There needs to be a though investigation into vaccines & Safty. The Kennedy/ Hazelhurst case demonstrates fraud & Obstruction of justice by DOJ Attorneys in the Autism Omnibus Proceedings. Dr. Zimmerman's affidavit states his belief that vaccines can & do cause Autism. The CDC committed Fraud when they tried to through the evidence in the trash that showed a connection to Autism & the MMR vaccine. CDC whistle blower William Thompson gave the evidence to Congressman Posey. Also there are two Merck employee whistle blowers in court currently stating that Merck committed fraud in the testing of the mumps part of the MMR vaccine, it does not have the percentage of efficacy claimed on the package insert. So forcing the vaccine is not only going to injure it does not protect. The HHS was responsible for doing reports on vaccine safety & up keep every two years since the 1986 Vaccine Compensation Act which they failed to do. They have not done one report. The NIH same thing, no results. They did not fallow through. 20019 the vaccine court has paid out over 4 Billion dollars in injuries(side effects) & death. Why is the Government getting involved with Health decisions & trying to force vaccinations? This is a good reason why Government should not be in control of our Healthcare. No Compulsory Vaccinations! Preserve Exemptions! Investigate Fraud in the CDC, HHS, NIH. And Merck. Subpoena William Thompson! Vaccines Can & Do Cause Injuries, Autism, Death & SIDS. Do the Right Thing!! Thank You!!
