TO WHOM IT MAY CONCERN:

I oppose HB3063

Doctors, CDC, and pharmaceutical companies should not be able to devise whatever immunization schedule they want, and the government mandate parents to comply. A parent should have a right to decide what immunizations to give their children; and still have access to public education.

I strongly oppose the government mandating all immunizations. I AM ASKING YOU PLEASE PROTECT OUR NATURAL RIGHTS AS PARENTS!

Thank you,

Loi Hansen
