Subject: House Bill 3063
Date: Wednesday, February 27, 2019 9:16:51 PM

To whom it may concern,

I am a resident of Oregon. I am a mother of a 5 year old daughter, who attends a private school.

I strongly oppose Bill 3063, which would eliminate non-medical vaccination exemptions for school children in Oregon. My daughter loves the school she goes to and it would break my heart not to be able to have her attend it next year just because shes not vaccinated.

I believe we as parents should have a choice in medical decisions for our children. My daughter is a very healthy 5 year old and she has not recieved 1 vaccination. I have friends and family members whos children have been affected by vaccines causing them to have permiment side effects for the rest of thier lives. Knowing that they put excessive amounts of mercury, dead baby dna and who knows what else into vaccines these days just terrifies me.

Mandating vaccinations is not going to keep our children safe from all the sickness in this world. Please DO NOT support this bill. Please maintain the integrity and respect for MEDICAL FREEDOM AND PARENTAL CHOICE IN OREGON by NOT SUPPORTING BILL 3063.

Sincerely,
Olga Tosa
