To whom it may concern,

I STRONGLY oppose HB 3063 !! As a parent of two toddlers, one who will be school aged next year and expecting our third this April, it is VERY important to me that I have the right to make parental medical decisions for them! I am opposed to mine and anyone else's children being denied their right to public education based on parents religious or philosophical beliefs towards vaccines!! Vaccines ARE NOT A ONE FOR ALL, just as medications and other certain medical treatments ARE NOT A ONE FOR ALL! Parents should have full rights to fully decline all thirty-one school required vaccines, vaccinate on a delayed schedule, selective vaccinate or vaccinate on schedule according to the CDC's current recommendations based on what they as parents feel is best for their child's health! No parent or child should ever be discriminated for the choice they've made.

Taking away religious and philosophical exemptions is not going to stop outbreaks, which seems to be the concern for this bill. They will still happen because those who are not vaccinated roam the general public on a daily. I'm NOT AFRAID of those who choose NOT TO VACCINATE because VACCINES ARE "SUPPOSED" to work and therefore the unvaccinated shouldn't pose a risk to any child "PROTECTED" by vaccines! Leave this choice up to us parents as it should ALWAYS be! We as parents are ALL only doing what we feel is BEST for OUR children!

EVERY CHILD DESERVES EQUAL RIGHTS TO PUBLIC EDUCATION NO MATTER THE CASE!

Trying to push parents to vaccinate their kids so they can attend public school is just going to cause more parents to question the effectiveness and motives towards vaccines. Myself included, will begin to question them more than I already have.

A concerned parent residing in a small town of Dayton, OR and mother of soon to be three children! Please DON'T TAKE AWAY my PARENTAL MEDICAL RIGHTS to MY children !
