

As a FOREVER Farm family, in Deschutes County, I beg you to not let this happen! We used to be members of the Farm Bureau, but, their focus has changed.

They no longer protect those of us that raise Healthy farm crops and Healthy Children.

Please don't make it any easier for these marijuana items to be spread to our farms. It has already been proven that there is more than a 6 year supply being grown in Oregon. I am begging you, Please Protect us!

Thank You,

Jeri Bradetich
