

Dear House Committee,

As one of your constituents, I am writing to inform you that I OPPOSE HB 3063 and ask you to please vote NO. Parental rights and medical decisions belong to the parents, not government. This bill is a far reaching overstep in taking away the personal liberty of individuals and families in the state of Oregon. This is not about whether vaccines do or do not work, and all about having the freedom of choice.

Thank you for serving your fellow citizens and for doing your best to represent them.

Lara Schlerf
