

To whom this may concern,

I'm writing to get some information on the necessity of this bill? It would effect my business in a dramatic way and I would prefer my business be left as it is, me running it myself. What is the purpose of changing things? Who is this doing any sense of good for? Please, I invite you to give me a good explanation because from where I stand it does nothing positive for my business or for thousands of other hard working independent stylists.

Thank you for your time,

Emily Tait
