

March 4, 2019

House Committee on Human Services and Housing Oregon State Legislature 900 Court Street NE Salem, OR 97301

Dear Chair Keny-Guyer, Vice Chair Noble, Vice-Chair Sanchez, and members of the Committee:

I am writing to you today on behalf of the Oregon Housing Alliance to express our support for HB 2896, which will create a loan fund to help a mission oriented non-profit organization, a housing authority, or a resident owned cooperative acquire manufactured home parks. The purchase of the park by one of these entities will ensure the park remains an affordable home for the long-term for residents.

The Oregon Housing Alliance is a coalition of ninety organizations from all parts of the state. Our members have come together with the knowledge that housing opportunity is the foundation on which all of our success is built – individual success as students, parents, workers, and community members as well as the success of our communities. We represent a diverse set of voices including non-profit housing developers, residents of affordable housing, local jurisdictions, and organizations working to meet basic needs in every corner of our state.

We believe that all Oregonians need a safe, stable, and affordable place to call home.

Today, we simply don't have enough affordable homes for people who need them, and vacancy rates have dropped precipitously towards zero in communities across Oregon. People – our neighbors and members of our community – are struggling with homelessness, housing instability, rent burdens, and to make ends meet and put food on the table. During the last school year, over 21,750 of our school children in grades K – 12 experienced homelessness at some point during the year.

Manufactured home parks have been a key source of affordable housing for many residents across Oregon. In total, there are over 62,000 manufactured homes in over 1,000 communities across Oregon. As land value rises, manufactured home parks may be put at higher risk of closure. Oregon has adopted many policies and strategies over the years to prevent park closures, which displace residents in need of affordable housing, and for many, results in the loss of their most valuable asset – their home. Strategies to preserve manufactured home parks include allocating resources to help non-profit organizations, resident owned cooperatives, or housing authorities to purchase the park and preserve affordability, as well as a capital gains exemption to incentivize owners to sell to one of these three types of entities. In addition, the state has adopted tax credits and direct payments from owners to help residents move if their park be closed.

HB 2896 creates a loan fund to help a non-profit organization, a public housing authority, or a resident owned cooperative to purchase the park. When these types of entities, the risk of closure decreases significantly, and the park can remain more affordable for residents for the long-term.

Prosperity Now, Manufactured Housing Metropolitan Opportunity Profile: Data Snapshot, July 2017, https://prosperitynow.org/sites/default/files/resources/2017%20Oregon%20Data%20Snapshot.pdf

Over the last decade, we have seen a number of manufactured home parks being purchased by non-profits and resident owned cooperatives. These organizations help ensure long-term affordability, and stability. Resident or non-profit ownership mean that residents are protected from quickly escalating space rents, and they are able to make strategic and important investments in park infrastructure. HB 2896 would significantly increase the ability of resident owned cooperatives, non-profit organizations, or public housing authorities to purchase parks across Oregon.

We know what home, and what stable housing, means to all of us. When people have safe and stable housing, it has important and significant benefits, and allows people to build for their futures. Kids are able to focus on the things that matter – being kids, doing their homework – instead of worrying about where their families will sleep at night. Parents are able to focus on work, on family, and on community. Safe and stable housing that people can afford is key to accessing opportunity.

We urge you to support of HB 2896.

Thank you very much for your time, and for your service to our state.

Sincerely,

Alison McIntosh
