

Dear Representatives and Committee Members,

My name is Marissa Vargas Castro, Newberg Oregon. This is Erick Vargas Castro, and our son, Elliot. We INSIST that you vote NO on House Bill 3063.

YOU senators and representatives work for US. Read the letters and emails and faxes. Listen to the phone calls and messages. Then, make a decision based upon majority and the RIGHT THING TO DO.

We pay you to make decisions for us. You are our representatives. It is your job to listen and speak for us.

I could throw out lots of numbers and references, but you already have a few hundred or so of those letters. So, I'll make some points:

If you pass this bill, you will be creating both discrimination and segregation. There are certain inalienable rights and you know of these. I have the right to decide what and when anything is ingested or injected in my body or my child's body. We, as parents, have the right to choose what we feel is best for our children. That is and will always be our right. Also, the Nuremberg Code...look it up.

My God stated clearly that I am to treat my body with respect and to be careful not to poison it. My God's laws are far above this government's laws, and I will obey HIS laws when they contradict the government's. It is not any human's place to take away that right.

These fellow brothers and sisters of mine who are against this bill will not give in just because this bill passes. By engaging in tyranny and fraud (since we ALL know there are ZERO safety studies completed on vaccines), you will be creating more "antivaxxers" and losing a LOT of money. We will be pulling our children from your schools. Have you thought about how much it will cost you to have us leave? Or how much it will cost you for us to get government assistance when we have to go down to one person's income to homeschool?

Why are children in public school with Hepatitis and HIV allowed to keep their DISEASES hidden from their classmates...yet we, who carry no diseases, are forced to be called out and segregated? Again, THIS IS DISCRIMINATION and I will always stand against it. Just like I stand against discrimination of religion and race, etc.

Maintain our RIGHT to choose.

I will never consent to this medical rape. I will never consent.

Thank you,

Marissa L Vargas Castro
Newberg, Oregon
