

Hello

My name is Misty Scarbrough

I am writing to let you know I currently have 3 children in the public school system that are partially vaccinated because of research I have done myself, I do not approve of mandatory vaccinations as it violates our rights as humans to choose our own medical care. If this bill passes I will be removing my kids from public schools and doing home school and the state will lose funding for my 3 kids in school, I have several other mothers that have the same stance as me and will also pull there children from schools, please reconsider this bill as it's a clear violation of our personal rights Regards Misty Scarbrough Eagle point Oregon
