

Regarding this bill to prevent local regulation of vacation rental:

Please do NOT pass this legislation.

Our neighborhoods are being inundated with commercial use, aka vacation rentals. We barely still have neighbors. There is nowhere for local residents to rent affordably. Wages are not keeping up with rents. Vacation rentals are not good neighbors. Tourists are not residents. Limiting the number of vacation rentals is necessary. Zoning for them would be much better.

Please do NOT deny us some local controls over the spread of commercial activity in our residential zones.
