Good afternoon,

I am writing to express my opposition to HB 3063. As a small business owner, Oregonian, and mother of three, this bill is harmful to families. I once stood in front of our flag and swore to defend this country from enemies foreign and domestic, and this bill is a direct threat to the personal freedoms and liberties of Oregon families. Coercion is not compliance and HB 3063 is blatant medical tyranny. To force children to be vaccinated to attend school, is detrimental to their right to a public education, regardless of their medical choices. This will also cause our schools to lose a large amount of funding. Please DO NOT support this bill. Parents have a duty to their children to research vaccines and make the best choice based on their personal findings, religious beliefs, etc. The pharmaceutical companies have zero liability and have nothing to lose. Oregon families have much to lose if this is passed. Where there is a risk, there must be a choice. Please oppose HB 3063.

Sincerely,
