

Dear Senator Johnson, Legislative Staff:

I'm writing to request that a no vote on Senate Bill 621 for the 2019 Legislative Session is needed. SB 621 would effectively prohibit local jurisdictions from regulating housing dwellings, particularly vacation rentals. This bill is being sponsored by Senator Girod. As a resident of the North Coast, I am particularly aware of the impact in my home of Astoria. Astoria is currently facing significant housing shortages. While there is demand for places for people to stay temporarily, it's important that local government be able to help assist and promote more affordable housing. I believe that SB 621 is bad for our coastal and resort communities. I urge a no vote on SB 621.

Sincerely,

Tyrel Trainor
