

PLEASE STOP THIS BILL! Living in a small community of Seaside Oregon my entire neighborhood is vacation rentals. Our town should have the right to manage and control of licenses that are issued. There is a shortage of long term rentals as well as a shortage of workers (due to the fact no rentals available to people who want to work and live on the coast). My quiet neighborhood is over run by vacation rentals. It's year round here on the coast and it needs to be regulated by the local city and the people of our town. Let us decide what is right for our community.

VOTE THIS DOWN!
