

Dear Legislatures

Thanks for taking the time to read and post my public comment.

I am writing this message in opposition of House Bill 2020

As a small business owner here in Southern Oregon we have high property cost, taxes ,utility bills, City and County FEES which the citizen have no control over. The state of Oregon keeps raising the fees of which we have no control of . Healthcare has risen out control due the higher premiums and higher deductibles.

The average citizen cannot absorb these higher cost already, let alone your proposal for even higher fees and taxes. Its time for you to do your judiicial duty and protect the citizens of Oregon from this outrageouse increase of NEW TAXES

If you really were serious about protecting the working class of Oregon you would not be hiding behind the EMERGENCY CLAUSE

So that tells us that you do not respect or care about what the real Oregonians think and let us vote on this matter

Why do the big corporations in Portland area get special exemptions like Intel, Nike and others?

What hypocritical legislators you really are. Its not about you . It should be about THE VOTERS!

Why should we trust an appointed person to control this massive bureaucracy with no oversight or say by the voters or guidelines? On your brochure handed out at the meeting in Medford, the only percentage I could find was in the climate investments fund and that was 10% to the Indian Tribes where is the rest of it going?

Sincerely

Ron Savage
