Date: Thursday, February 28, 2019 11:47:33 AM

To whom it may concern,

My name is Brittney Troppe and I am a Pediatric certified Registered Nurse and I do not believe a child should be excluded from schools because the parent chooses to exempt their child from one or more vaccines due to religious or philosophical reasons. I am PRO vaccine, but I do not believe it's the government's place to control these sorts of decisions, it should be the parents. OR before mandating vaccines, consider the local population statistic/herd immunity before mandating it, because it may not even be necessary. Also, genetic testing for allergies or Genetic mutations like MTHFR should be more readily available/cost effective/required before getting vaccinated. Please vote NO on HB 3063. and also, PLEASE start a movement to have the vaccine companies be held liable for their products and consequences like everyone else. It's ridiculous to mandate something that is not even regulated or held responsible for the harm they may cause.

Thanks so much for your consideration,
Brittney Troppe
