---

To our trusted elected officials,

As a mother and kindergarten teacher, I am pleading with you to help stop HB3063 from passing. I am in close contact with children and their families all day long and know that we need to maintain our right to decide what goes into our bodies. I understand the fears about sickness spreading, but this is not the way to do address the fears. We need to be trusted to do what is right through education and the space to allow for individual needs and differences. Please support our freedoms in a time when they are becoming more and more important.

--

Sincerely,

JoEllen Meyeroff
