Subject: vaccine testimony
Date: Thursday, February 28, 2019 12:12:47 PM

Dear Oregon lawmakers,

I am writing to implore you to keep the option of choice in the vaccine debate until more conclusive evidence is uncovered which may require blanket vaccination. At this time there are records of some children have adverse events due to vaccines, and there are also religious and social reasons for exemption.

I am completely in support of public safety. But given that non-vaccinated people are only putting other non-vaccinated people at risk, I do not believe there is a need for a blanket law to require vaccination. Those who choose to opt out do so knowing the risk they put themselves in.

There are many reasons for exemption: social, religious, health & medical. My own son, who is on the autism spectrum, may be at risk for further health issues with some vaccines. We have chosen to selectively vaccinate based on predominance of risk.

The main thing is, CHOICE is important until this debate is fully resolved. Please refrain from passing a law which would take away that choice.

Thank you.

Kathy Kali, entrepreneur & mother of 2
