

To Representatives on the House Health Care Committee:

My name is Mary Grant and I am a Nurse Practitioner in Portland, Oregon. I am writing to urge you to support HB3063 which seeks to remove the non-medical vaccine exemption from Oregon Law. The fact that there are children that are not vaccinated in the community it puts children at risk who either have an illness or are too young to receive a vaccination. I am not saying to take away a parent's right to make decisions about their child's health care it just requires that their child be vaccinated. Thank you for your time. Please support HB 3063.
