

I am a resident of Salem, OR, and I oppose HB3063.

I am a mother to 2 children.

No child should be denied access to education because of a parent's decision to vaccinate selectively or not at all. All medical decisions are within a parent's right to decide what is best for their children.

The state has no place in mandating any medical procedure and removing the choice of parents on what is best for their children.

No school in Oregon had a measles outbreak. There is no emergency.

Thank you,

Sherri Clark
