

I oppose HP 2020!

It will burden the citizens of un-nessarrary cost and financial burdens. Oregon has a very low Carbon emissions, but seems to be dictated by the few in Salem, to over whelm the public with tax's on top of taxes!!

In the link below, "Obama and Biden's; Blue Book for Change in America" (copy and paste please), scroll down to #37 Energy. I see this scheme on Americans have never went away! But, instead, continues by Progressive Action.

[https://archive.org/stream/346512-obamablueprintforchange/346512-obamablueprintforchange\\_djvu.txt](https://archive.org/stream/346512-obamablueprintforchange/346512-obamablueprintforchange_djvu.txt)

PLEASE! Do not impose this horrible plight on Oregon citizens. We are a state of few industries, and it will drive them to another state location! I was a truck Driver for 27 years, located in Central Point, OR. We were forbidden to fuel in the state of Oregon for the high fuel tax on highways and to travel on highways outside of Oregon to save on highway use tax.

I am retired now, living on my humble SSI, and Trail Card to just get by. There are thousands and thousands of seniors living the same as I. Therefore, I am speaking for those that do not know of this terrible imposing scheme to pay more just to live, eat, stay warm, simple traveling, (this Socialistic Program) into their lives!

Thank you for the opportunity to inform you of the burden being imposed upon us.
