BACKGROUND:

Shipping containers are designed to transport goods of all kinds, but are increasingly used for a wide variety of nonstandard building and storage purposes, given that they are relatively abundant and inexpensive, transportable, weatherproof and secure.

Senate Bill 430 is inspired by the community effort of Lincoln County to acquire a number of shipping containers, stock them with emergency supplies, and place them within walking distance of one to three schools. Supplies are reserved for school use should disaster strike during school hours, and may be used by first responders and the larger community if not during school hours.

Senate Bill 430 creates a refundable income tax credit equal to 10 percent of a shipping container's retail value, to encourage donation to public entities for the storage of emergency supplies within 1,000 feet of public buildings.
