

Madam Chair and Members of the Committee -

I came yesterday to the hearing and signed up to speak in opposition to HB 3063, although I choose to vaccinate my children I feel its my choice make those decisions for my children, alongside the care of our doctor.

The CDC recommends the second MMR shot between the ages of 4 and 6, yet the way Oregon data is pulled from Kindergarten, rather than 1st grade or later, that means that parents who simply wait for that one dose until age 6 or 6.5, they would be unable to attend school under this bill even though they are still within CDC guidelines. Even if my daughter were to have 30 of 31 doses she would be denied access to education under HB 3063. She has every right to recieve an eduction, as does any child in this state, without medical coercion. My family pays taxes for our children to recieve that education. Will you exempt my family from paying taxes if my children aren't allowed in the schools if this bill passes? I don't think that wouldn't even be considered. Please kill this bill!

Please also take into consideration everything you heard at the hearing, and realize the opposition greatly outweighed the support!

Thank you for your time.

Jessica Davidson  
Marion County Oregon
