Subject: House Bill 3063 opposition

Dear Legislators,

I oppose HB 3063. I am a mother and teacher. I do not want the government taking away my right to choose what I am putting into my body. Nor do I want to create discrimination towards students whose families choose not to vaccinate and not allow them public education. This bill is not In the best interest of students nor a family's right to choose what is best for their children.
