Dear representative, I oppose HB3063. I am not an antivaccer, nor am I a parent.

But freedom of choice is something that I strongly believe in.

People have a right to choose when and which vaccinations they get. We are a free county that boasts liberty and freedom of choice as its core values. HB3063 is a gross overstepping of boundaries that feels dictatorial rather than democratic. It's suggestion of excluding children who are unvaccinated even from online school programs is controlling and draconian in its reasoning. I am disturbed and oppose HB3063.

Thank you for your time,
Shebaniah Campbell
