

i'm writing this to add my opinion to the public comments on the proposed bill fHB3063. My name is Daniel de Hackbeil and i'm a registered voter living in josephine county. I strongly oppose HB3063. I think its unlawful and unconstitutional to remove the vaccine exemptions, and removing the parents choice in the matter. it is a parents right to determine whether or not their child should receive a vaccine not the state. This is an issue of limiting personal freedom and i have an issue with the state, removing the right of choice with regards to their childrens body. NO on HB3063 thank you
sincerly,
Daniel de Hackbeil
