Subject: HB 3063

Hello,

I am a native Oregonian. I grew up a healthy kid. I went to the dentist, the eye doctor and the pediatrician. I got all the recommended vaccines. I even ate my vegetables. Fast forward to my life now. I have struggled with severe gut pains for over almost two decades. I have been diagnosed with multiple hormonal issues, gut issues and even a heart condition. My husband and I battled infertility for almost 4 years before conceiving our daughter when doctors explicitly told us it would not be possible. I have learned to be ruthlessly particular about what goes into my body. I have also chosen to be vaccinated because I have the freedom to make that choice. I have chosen for my daughter to be vaccinated because I have the freedom to make that choice. HB 3063 would remove that freedom and I stand in opposition to it.

Thank you.
