RE: Please Oppose HB 3063

Madam Chair, Vice Chair & Committee Members

This letter is in strong opposition of HB 3063. It is imperative that all information presented before you is examined. This bill to end all non-medical vaccine exemptions for Oregon's school children is coercion. As a paying taxpayer my children should have a right to attend public school whether vaccinated or not. One thing for sure is we need to look what is in the best interest of our children. It is not a one size fits all for vaccinations

Removing the ability of a parent to decline required immunizations on the behalf of a child for reason other than child's indicated medical diagnosis is unconstitutional.

How can something be mandated when the manufactures of these vaccines nor the doctors are held liable who will have to answer if something happens to my child, grandchild or any member of the family for that matter?

Attached are :

1. Vaccine components from the CDC website
2. Litigation from Informed Consent Action Network vs The US HHS
3. Nuremberg Code1 Q

I ask that you all vote no on HB 3063
