

Dear Representative,

Re: HB3063

My name is April Scott. I am a parent and registered voter in Polk County. Please accept the following testimony and documentation in opposition to HB3063. It is my sincere position that mandatory vaccines and removal of philosophical and religious exceptions is a slippery slope that will inevitably lead to a tidal wave of backlash in the form of potential liabilities for damages against the State of Oregon.

It is no secret that vaccines inherently carry a number of risk factors that are capable of causing severe damage and even death to some vulnerable children. If this were not the case then the Federal Vaccine Compensation Program would not exist and would not be paying out millions of dollars to families of vaccine damaged victims as deemed by the court.

The Department of Justice issues a quarterly report on compensated cases for vaccine injuries and deaths as determined by the U.S. Vaccine Court, showing that millions of dollars in compensation are being spent each year to atone for injuries and deaths due to vaccines.

The December 6, 2018 report (see below) concluded that there were 144 settlements that quarter for vaccine injuries and deaths - 89 of the cases were listed in the report. Some of these cases took more than 5 years to settle.

Of those 89 cases compensated, 77 were for injuries and one death caused by the flu shot. Although there are thousands of legitimate case examples illustrated in these reports proving death and damages as a result of various vaccines, the flu shot is a prime and dangerous example with demonstrated outcomes such as:

“GBS – Guillain–Barré syndrome is a rapid-onset muscle weakness caused by the immune system damaging the peripheral nervous system.

TM – Transverse myelitis is an inflammation of both sides of one section of the spinal cord. This neurological disorder often damages the insulating material covering nerve cell fibers (myelin). **Transverse myelitis** interrupts the messages that the spinal cord nerves send throughout the body.

ADEM – Acute disseminated encephalomyelitis, or acute demyelinating encephalomyelitis, is a rare autoimmune disease marked by a sudden, widespread attack of inflammation in the brain and spinal cord.

CIDP – Chronic inflammatory demyelinating polyneuropathy is a neurological disorder — a condition that targets your body’s nerves. Symptoms aren’t the same for everyone, but you may be tired and have areas of numbness and pain.

MS – Multiple sclerosis is a demyelinating disease in which the insulating covers of nerve cells in the brain and spinal cord are damaged. This damage disrupts the ability of parts of the nervous system to communicate, resulting in a range of signs and symptoms, including physical, mental, and sometimes psychiatric problems.

SIRVA – SIRVA stands for **“Shoulder Injury Related to Vaccine Administration.”** It can happen when a vaccine is injected into the shoulder too high or too deep and can cause several types of injuries. SIRVA can lead to intense, prolonged pain, limited range of motion, and shoulder-related injuries such as Adhesive Capsulitis or Frozen Shoulder Syndrome.

Myasthenia gravis is a long-term neuromuscular disease that leads to varying degrees of skeletal muscle weakness. The most commonly affected muscles are those of the eyes, face, and swallowing. It can result in double vision, drooping eyelids, trouble talking, and trouble walking.

Peripheral Neuropathy is damage to or disease affecting nerves, which may impair sensation, movement, gland or organ function, or other aspects of health, depending on the type of nerve affected.

DEATH – people die after receiving the flu shot.”

Below is the Dec. 2018 Federal Vaccine Court Compensation Program Report. Please note these are real children facing agonizing health outcomes as a result of these vaccinations that the CDC claims are safe. This snap shot in time covers only 3 months of case reporting. These are the same vaccines that we are debating here today in HB 3063 designed to remove all parental rights, and forcibly inject our children as a mandatory state of practice, regardless of any concerns or inherent risk to their health.

Is the State of Oregon prepared for this stream of liability? Is it not included in your mission to protect our most vulnerable citizens? If your answer is yes, and it should be nothing less, then it is your solemn duty and obligation to act in opposition to this ludicrous and harmful legislation. Please read the following report to illustrate this point:

Adjudicated Settlements*

Reporting Period: 8/16/18 – 11/15/18

Vaccine(s)	Alleged Injury(ies)	Petition Filing to Settlement Filing
1. Flu	Focal Onset Seizure Activity	6 Years
2. Flu	GBS; ADEM	5 Years 10 Months
3. Flu; Hep A; HPV	MS	5 Years 9 Months
4. Flu	SIRVA	5 Years 5 Months
5. Flu	GBS	5 Years 5 Months
6. DTaP	Seizures; Development Delays	5 Years 5 Months
7. Flu	Optic Neuritis	3 Years 10 Months
8. Flu	Necrotizing Muscle Myopathy; Death	3 Years 7 Months
9. Flu	Acute Cerebellitis; Cerebellar Ataxia	3 Years 5 Months
10. Flu	Dermatomyositis	3 Years 4 Months
11. Flu	GBS	2 Years 9 Months
12. HPV	TM	2 Years 9 Months
13. Flu	Bell's Palsy	2 Years 7 Months
14. Flu	GBS	2 Years 2 Months

14. Flu	GBS	2 Years 2 Months
15. TDaP	MMF	2 Years 3 Months
16. Flu	TM	2 Years 2 Months
17. Hep A; MMR; Varicella	Oculomotor Nerve Palsy	2 Years 2 Months
18. MMR; TDaP; Hep A	ITP	2 Years 1 Month
19. Flu	Neurological Demyelinating Injury	2 Years 1 Month
20. Flu	Urticaria	2 Years 1 Month
21. Prevnar	SIRVA; Serum Sickness; Chronic Serum Sickness; Inflammatory Polyarthritis; Chronic Kidney Disease; Liver Complications; Acute Renal Failure; Chronic Renal Failure; Metabolic Acidosis; Microscopic Hematuria; Proteinuria; Renal Glycosuria; Colitis	2 Years 1 Month
22. Flu	GBS	2 Years 1 Month
23. Flu	SIRVA	2 Years
24. Flu	GBS/MFV	2 Years
25. Flu	GBS	1 Year 11 Months
26. Flu	CIDP	1 Year 10 Months
27. Flu	GBS	1 Year 10 Months
28. Flu	GBS	1 Year 9 Months
29. Flu	SIRVA	1 Year 9 Months
30. Flu	SIRVA	1 Year 9 Months
31. Flu	CIDP	1 Year 9 Months
32. Flu	GBS; CIDP	1 Year 9 Months

33. Flu	GBS	1 Year 9 Months
34. Flu	GBS	1 Year 8 Months
35. Flu	GBS	1 Year 9 Months
36. Flu	GBS/MFV	1 Year 8 Months
37. Flu	TM	1 Year 7 Months
38. Flu	SIRVA	1 Year 7 Months
39. Flu	SIRVA	1 Year 7 Months
40. Flu	Chronic Myopericarditis	1 Year 7 Months
41. Flu	SIRVA	1 Year 7 Months
42. Flu	GBS; TM	1 Year 7 Months
43. Flu	SIRVA	1 Year 7 Months
44. Flu; Pneumococcal Conjugate	SIRVA; Bilateral Shoulder Injuries	1 Year 6 Months
45. Flu	SIRVA	1 Year 6 Months
46. Flu	SIRVA	1 Year 6 Months
47. Flu	SIRVA	1 Year 5 Months
48. Flu	SIRVA	1 Year 5 Months
49. Flu	CIDP	1 Year 5 Months
50. Flu	TM	1 Year 5 Months
51. Flu	SIRVA	1 Year 5 Months

51. Flu	SIRVA	1 Year 5 Months
52. Flu	SIRVA	1 Year 5 Months
53. Flu	Brachial Neuritis; Parsonage Turner Syndrome	1 Year 3 Months
54. Flu	SIRVA	1 Year 5 Months
55. Flu	SIRVA	1 Year 4 Months
56. Flu	SIRVA	1 Year 4 Months
57. Flu	GBS; Death	1 Year 4 Months
58. Flu	GBS	1 Year 4 Months
59. TD	SIRVA; Bursitis; Tendinopathy	1 Year 3 Months
60. Flu	GBS	1 Year 4 Months
61. TDaP	SIRVA	1 Year 4 Months
62. Flu; Pneumococcal Vaccine	Bilateral Shoulder Pain; Rash	1 Year 3 Months
63. Flu	SIRVA	1 Year 4 Months
64. Flu	SIRVA	1 Year 3 Months
65. Flu	SIRVA	1 Year 4 Months
66. Flu	TM	1 Year 3 Months
67. TDaP	SIRVA	1 Year 2 Months
68. Flu; TDaP	SIRVA	1 Year 3 Months
69. TDaP	SIRVA	1 Year 2 Months
89. TDaP	SIRVA	10 Months

Please see the following links to additional quarterly reports (PDF) from the Federal Vaccine Compensation Program:

<https://www.hrsa.gov/advisorycommittees/childhoodvaccines/Meetings/20171208/doj-presentation.pdf>

https://www.hrsa.gov/advisorycommittees/childhoodvaccines/doj_presentation_december_accv.pdf

In addition, here is a complete list of all reports covering 2013-2018:

<http://vaccineimpact.com/vaccine-injuries-and-deaths-compensated-through-vaccine-court/>

Next I would like to emphasize the fact that those receiving the *Live, attenuated flu vaccine (nasal spray)*, as admitted by the CDC and flu manufacturers, are carrying around and spreading the live virus, which has the potential of infecting others for a full 7 days following vaccination!

This is the simple hypocrisy behind the influenza outbreaks being reported in the media. For example, the vaccinated are not being encouraged to stay home because they are risk to the rest of the population. In fact, the unvaccinated are the ones that are deemed at risk for spreading the influenza.

In clinics and hospitals, recently immunized medical staff are not required to stay home or to even wear a mask to minimize the threat of spreading the live virus to their patient populations. Instead, unvaccinated nurses and staff are perceived as the real epidemic threat and are the ones required to wear a mask, or worse they are fired for refusing the flu vaccine.

Not all doctors and scientists are in agreement with regard to the safety of vaccines. Please provide a careful review of the following:

Doctors and Scientists with Concerns About Vaccines

June 11, 2013,

The following is a list of scientists and physicians (over 160) who acknowledge that vaccines can and do harm some children and/or have some concern about a vaccine, combinations of vaccines, the vaccine schedule, or an ingredient or ingredients in vaccines. These professionals are not anti-vaccine (though some of the medical doctors are) rather they recognize that vaccines, like all pharmaceutical products, carry risks. They also know that scientific inquiry should never cease.

They have either spoken publicly about their concerns or have published research that explores safety issues relating to a vaccine, the vaccine schedule, a combination of vaccines or ingredients in vaccines.

While the media attacks Dr. Andrew Wakefield claiming he is the only doctor with concerns about vaccines and that he alone has caused millions of parents to lose faith in vaccinations, this assertion is demonstrably untrue. Rather, hundreds of scientists and doctors have voiced concerns and have published research investigating adverse reactions to vaccines and their components. Placing the blame for parental concerns on Dr. Andrew Wakefield is disingenuous at best and blatantly dishonest at worst. Parents have read the research themselves and this is why they are concerned.

It is time for the media to do their job, read the research and talk with the hundreds of doctors and scientists who have expressed concerns.

Vaccinations are capable of making some children very ill, even resulting in the death of some. Federal law in the US recognizes this fact and compensates the victims while vaccine makers bear zero liability when their vaccines do cause harm. That vaccines can cause harm is not open to debate, how often vaccine injury occurs is undetermined though assumed to be infrequent.

Not all the doctors or scientists listed here would want their names listed. They may not want to cast doubt on vaccines or they may fear for their jobs. But they have all either published research demonstrating a possible safety issue relating to vaccines or they have acknowledged publicly that vaccines do cause harm in some children.

This list is a work in progress, taken from public statements as well as the 200 research studies linked to on *The Greater Good's* website (<http://www.greatergoodmovie.org/learn-more/science/>)

We have not yet listed all their credentials and we have not separated PhDs from MDs nor have we included all the scientists and doctors – there are many, many more names to add.

Please read this list of over 150 scientists and physicians and know that if you are a doctor or a scientist and have concerns, you are not alone. If you are a worried parent, you are not alone. If you or your child has been vaccine-injured, you are not alone.

If you are the media, you need to do some investigating. We have already done much of the legwork for you by creating a [Catalogue of Science](#) that contains 200 research studies and case reports published in mainstream peer-reviewed medical literature documenting and exploring safety issues relating to vaccines.

This list was created by Leslie Manookian of *The Greater Good* in collaboration with Anne Dachel of Age of Autism.

Source: <http://vaccineimpact.com/2014/doctors-against-vaccines-the-other-side-of-the-story-is-not-being-told/>

Do not live under the false pretense of total vaccine safety. It is an illusionary concept designed to sell vaccines and increase the bottom line of the pharmaceutical companies that have little interest in demonstrating due diligence in the safety and efficacy of their products.

Please see this report from Harvard University Edmond J. Safra Center for Ethics:

Institutional Corruption of Pharmaceuticals and the Myth of Safe and Effective Drugs

Journal of Law, Medicine and Ethics Vol. 14, No. 3 (2013)

Harvard Scientists warn that “over the past 35 years, patients have suffered from a largely hidden epidemic of side effects from drugs that usually have few, offsetting benefits.”

There should be no question that Oregonians deserve to have a say in what happens to their bodies, their children and their rights. No medical procedures should be forced upon the people of a democratic, civilized society. The very concept of forced vaccines or that of any involuntary medical procedure is barbaric and shows a significant lack of consideration and protection for the health and rights of all Americans.

With this legislation the state is determining the risk vs. benefit assessment instead of parents, taking away our right to act on an informed decision. There are several reasons why parents choose not to vaccinate their children, and if we look at industry independent facts, along with the science we can see why parents continue to question the safety and necessity of vaccinations. The bottom line being that there are no independent, peer-reviewed studies without blatant conflicts of interest, which have been conducted to prove that the current recommended CDC vaccination schedule is fully safe.

Please vote in opposition to HB 3063. It is the right thing to do for all Oregonians. As a registered voter, rest assured I will be following up on these outcomes and voting appropriately in the next election to remove any candidate that voted in favor of this asinine bill.

In addition to the information and reports above, I would like to submit the following documents into evidence:

What is Cumulative Knowledge, and Why Should it Interest Me?

Cumulative Knowledge is determined by ascribing a numerical value to all the articles indexed on our database. The [GreenMedInfo.com](#) algorithm appraises a study's overall evidentiary power and quality by generating a numerical value. This "Cumulative Knowledge" score incorporates variables such as study type, with the following types listed in descending order by their power: Meta-Analysis, Human Study, Human: Case Study, Animal:Transgenic, Animal, In Vitro, Review, and Commentary. The cumulative total will provide you an idea about the depth and quality of information that this topic has accumulated on our site. For instance, if you downloaded a document on "**Cancers: All**", you might see "**Curcumin**" with a **Cumulative Knowledge** of **677** and **Resveratrol** with a **Cumulative Knowledge** of **175**. This does not mean that **Curcumin** is better, but just that we have gathered more quality research on the Substance **Curcumin**. [Click here to read a more in depth explanation](#)

How are Topics and Articles Sorted in this PDF?

Articles in this document are placed within their respective **Topic** category. If you download a document on the Disease "**Cancers: All**" and are interested in all articles pertaining to the Substance "**Curcumin**" with regard to "**Cancers: All**", you will find them under the "**Curcumin**" sub-section underneath the **Cumulative Knowledge** section. **Topics** are sorted based on their **Cumulative Knowledge** in relation to the main topic of the download. In the previous example, it would be in relation to "**Cancers: All**". Articles are then sorted based on the articles **Published Date**. **Articles** are sorted in a descending fashion, which means that the most recent articles are displayed first. **Articles** may appear more than once in this document. For each **Topic** that an **Article** contains, it will be displayed in that sub-section. For example, if an **Article** contains the **Substances** "**Pterostilbene**" and "**Resveratrol**", the article will be displayed under each **Topic**.

Related Topics

This Topic includes articles from the following related Topics : [Vaccination: Abortion](#), [Vaccination: Adult Rubella](#), [Vaccination: Animal Model](#), [Vaccination: Anthrax](#), [Vaccination: Anti-Fertility](#), [Vaccination: BCG \(Tuberculosis\)](#), [Vaccination: Combinations](#), [Vaccination: Diphtheria-Pertussis-Tetanus](#), [Vaccination: GMO Vaccines](#), [Vaccination: HPV \(Gardasil\)](#), [Vaccination: Haemophilus](#)
