

Daryl LeClerc <murphyslaw099@gmail.com>

Dear House Committee on Energy & Environment, Rep. Ken Helm, Chair

I strongly support HB 2623, Prohibits use of hydraulic fracturing for oil and gas exploration and production.

Oregon's Aquifers are at grave danger from fracking with hydraulic injection of waste water & chemicals.

Please support prevention of fracking in all of Oregon, including the Nearshore & Offshore Ocean.

Thank you,

Daryl LeClerc
