

Members of the committee,

Please note my vigorous opposition to HB3063.

Government has NO PLACE in my children's healthcare. These precious humans were entrusted to ME by the Almighty God. I am solely responsible for their care. No one can make decisions for their wellbeing like I can, no one will ever love them like I do, and no one else will answer to man or God for it.

This bill is unconstitutional, discriminatory, and grossly over-reaching.

I viewed the live coverage of yesterday's hearing and found it to be massively swayed to the opposition. That is an undeniable fact. Additionally, with maybe 2 to 3 exceptions, I noted that the support the bill did have came primarily from special interest groups with deep pockets. These groups do not represent the will of the people! They are by and large, groups that profit off of vaccines.

Please take note of the will of the people do not waste any more resources with this bill!

Sincerely,

Kori Sing
