

Hi

My name is Jason De Graff from Springfield Oregon.

I oppose eliminating exemptions.

The vaccine injured community (Exvaxxers) have already gone through hell. Piling this on top of all that is akin to a modern day witch hunt. The people who are pushing to remove exemptions should be ashamed of themselves.

Medical exemptions are practically impossible to get. Whoever said they aren't doesn't know. Most medical practices won't even see partially or unvaccinated children let alone give them a medical exemption.
