Hello,

Please do not pass this bill. I am not opposed to vaccinations, in fact, my child has gotten most of what they need to this point, but I do want the right to determine the schedule of these vaccines and to make an informed decision with our healthcare provider as to when and what vaccines our child will receive.

If this bill is passed, our child will likely need to be homeschooled or we will have to relocate, which we would be willing to do in order to do what is best for our child.

Please don't take away this right that we have as parents.

Sincerely,

Katie Earley
