

I am writing the letter to oppose the Mandatory Vaccination Bill HB 3063.

I am disheartened as a mother that I would be forced to inject my babies with so many vaccines at once. I am a pro-vaccine mom but I do choose to vaccinate at a slower rate because I watched my cousin and two friends deal with the ramifications of their children reacting to so many vaccines at once. Please, as a fellow parent, grandparent, American citizen, and protector of our children, do not take my right away as a parent.

Sincerely,
Juli Tussing
