

To Whom It May Concern,

I am writing this testimony to express my thoughts against the Mandatory Vaccination Bill. I had my first son April of 2016, I followed the recommend vaccination schedule, until he was 6 months. After each vaccination appointment he started showing signs that his body was having severe reactions to the vaccines. It wasn't until his 6 month wellness check that we started the alternative delayed vaccination schedule. We did this until he was 2. He's continued to change, like he his spirit was fading, stuck in a body he can't navigate. While I can't go back and reverse the damage I've done to him, I will do everything in my power to advocate for him and the other children who are subjected to such toxic injections. I absolutely oppose this bill.

Respectfully,  
Ashley Gestson
