

My name is Naomi Shawaluk and I am Pleading you to not pass HB 3063. This bill is unnecessary in a state that has an overall 65% vaccination rate. Oregon has a high MMR vaccination rate across all counties as well. Only 2.6% of kindergarteners are unvaccinated. With such a high vaccination rate across the state you don't need to force anyone to inject foreign ingredient into their body. There have been no DOUBLE BLIND PLACEBO studies for vaccines. When they "test" a vaccine, it's a vaccine vs a vaccine rather than a non vaccine solution. You can't get accurate statistics from testing a vaccine vs a vaccine. That's like testing beer vs beer and seeing which one gets you drunk. It's madness. It was also said that children with an underlying mitochondrial disorder, MTHFR Gene have a higher risk of being injured by vaccines but our children aren't tested for it before getting vaccinated. We have a problem in this country, we have high autoimmune disorder, autism, seizures disorder, allergy and aids rates. THIS IS AN EPIDEMIC. Not unvaccinated children. Unvaccinated children have been around since the first vaccine was introduced. IF YOU PASS THIS BILL YOU ARE TAKING AWAY THE AMERICAN PEOPLES MEDICAL FREEDOM. I can guarantee you, it will not end well. YOU are taking away thousands of people's right to refuse medical treatment. It is outrageous and delusional. What's next? Are you going to make it illegal to not be an organ donor? As an American IT IS MY RIGHT TO REFUSE ANY MEDICAL TREATMENT I DEEM UNNECESSARY. You doctors and vaccine manufactures and patent holders will make so much money from mandating vaccines. It's sick that I am a resident of a state who believe it's someone's body, and their right, choice and decision for ABORTION but NOT VACCINES. ITS MY BODY. IT SHOULD BE MY CHOICE WHAT GOES INTO IT. So a woman's fetus is her body, her choice. BUT MY BODY ISNT MY BODY AND ITS THE STATES CHOICE? OUTRAGEOUS!!!! This bill is a joke and contradicts the new bill Governor Kate Brown just passed. Illegal Aliens can get abortions? You can abort if you don't like your child's gender? You can about full term? But the Oregonians can't make medical decisions? I'm not sure what crack you all are smoking but you're fucking delusional. Are you aware of the Cutter Incident? In 1955 40,000 people were vaccinated with the polio vaccine and 20,000 contracted polio from the vaccine. 200 children were paralyzed and 10 were dead. Vaccines aren't safe. There hasn't been any safety studies in the last 32 years. No studies how vaccines react when administered together yet children always receive around 8 vaccines per well baby visit. If you want to mandate vaccines then you need to repeal the NVC! ACT from 1986. Holding manufacturers liable for their vaccines, making them want to make and test safer vaccines. I'm not anti vaccination. I just want safe vaccines. Do not pass the house bill 3063 or a lot of children's lives will be on your hands. Oregon will slowly start to have more soda rates, sickness, etc. just watch it happen. Do not pass this bill.
