

We lost our Grandson, a charming and kind young man , whom we loved.

But we also "lost " our son and wife and Taylor's siblings who turned into "Zombies" after his death; for a long time.

We felt helpless and very very sad, to see our adult children with broken

hearts and we couldn't "fix" them.

This is not something you would wish on anyone and we are praying that

"Taylor's Law" will be passed to help other families and to "really' punish

those who prey on the vulnerable addicted.
