

Now is the time to be brave, to have a vision. Remember that Tom McCall passed a bottle bill that spread far and wide outside of Oregon. Edith Green represented Oregon and she helped to spread women sports around the world. Both these Oregonians were brave visionaries, please do the same now by supporting HB2020. Now is the time for action to help save Oregon set an example of what can be done for our planet. Please be brave visionaries and leave a legacy that you and all Oregonians can look back on and be proud of.

Thank You, Barbara Baylor.
